MSc. Jan Puylaert, Designer, born in Sas Van Gent, Holland, 16/11/1963 www.janpuylaert.com

Studies

1988 – Industrial design at NHIBS (National Institute for Architecture e City Construction) Antwerp / Belgium

1990 – Master in Science Bionics at The European Institute of design / Milano / Italy

Curriculum Vitae

After various design-linked occupations he started his own design&production company WET® in 2000 promoting trendsetting products for the bathroom field, accomplishing sales on international scale in both private and hotel sector. www.wet.co.it

During the years he becomes more&more involved in the actual material matter & production field when he develops together with Claudio Milioti the innovative eco-sustainable ECOPIXEL® material www.ecopixel.eu which apart from being an innovative material, aims to be a High End Designers brand in all fields.

His near future plan is to further develop ECOPIXEL and start up “the factory of the future”. A concept that should bring production and life back together.
